GROWING WORSE.

Reports From the Storm in the State of Washington.

Rail Communication Will be Abandoned Several Days—A Number of Additional Deaths Reported.

SEATTLE, Wash., Nov. 22.—Reports of the storm throughout the state are still worse today and the prospects are that rail communication will be abandoned for several days at least. A number of additional deaths are also reported as a result of the floods, while the loss of property in the shape of farm buildings carried away and wrecked will make a very formidable item in the valleys of Duwamish, White, Green, Black, Stuck, Cedar and Puyallup. The rivers to the southward of Snohomish, the Still, Agamish and Skagit, northward, are vast lakes. In the Stuck valley, for as the eye can see, the valley is a seething lake, on which logs, shingle bolts, wrecked buildings, railroad ties, uprooted trees and debris are jammed together ten to twenty feet deep, and it is feared that the new county bridge will be carried away. In Chehalis county, near Elma, the Northern Pacific railway bridge on the Grays Harbor branch is so weak that trains dare not cross until the high water recedes. Additional washouts on the Northern Pacific main line, between Seattle and Tacoma, and on the Portland route are reported, and no trains have arrived today or are liable to arrive for several days. Long trestles have also been washed out. The same state of affairs is reported on other lines. There were several more landslides reported yesterday. To add to the already bad condition of the roads there have been several wrecks. In the valleys and along the railroads water covers the tracks in many places for long distances to the depth of ten feet. The Great Northern railroad will not be able to run trains until the bridges have been repaired, the slides removed and the track renewed. The Seattle, Lake Shore and Eastern railroad runs trains to the internal boundary, but transfer must be made around the slide at Blackman. Three or four steamers have been reported sunk in the Snohomish river but no lives are reported to have been lost. Large steamers are carrying passengers to Whatcom to make connections with the railroad. J. M. Meader's farm hands are reported to have been drowned last Sunday, near Snohomish. Professor Gallard, wife, son and niece and boatman, all adults, are believed to have been drowned, at their boat was found yesterday on an island. They left Everett Friday afternoon for Marysville and have not been seen since. Many farmers throughout the entire western portion of the state have lost all their stock by drowning and some in the rich and extensive valleys have escaped from loss. The damage to the agricultural districts will amount in many hundreds of thousands of dollars. It certainly has been the worst rainfall that has ever been experienced on the Puget Sound, and, the rain having set in again, it is liable to cause additional loss. Several additional small towns along the railroad lines are under water and some single story houses are entirely submerged. It is believed when the telegraphic communication is resumed the reports will come in from the worst flooded localities of many lives having been lost and much stock killed. Though no information has yet been received, the Snohomish valley will doubtless suffer the same as the others, and the mining districts will meet with similar disaster. Another train wreck is reported on the Seattle and Northern railroad, up the Skagit valley, through running on water covered track, but no lives have been reported lost. Kittitas county will sustain a heavy loss in the destruction of the bridges over the Yakima river and other counties are sure to be very badly damaged by the floods. Reports from British Columbia are to the effect that the valleys in that country have met with a similar disaster.

TYPHOID EPIDEMIC.

Eleven Hundred Cases Reported in the City of St. Louis.

ST. LOUIS, Mo., Nov. 22.—There is no longer a doubt that this city is in the clutch of a typhoid fever epidemic. There have been eleven hundred cases reported to the board of health since April 1, but only recently have they been developing rapidly enough to alarm the officials. One of the leading physicians and bacteriologists of the city said yesterday that typhoid is a forerunner of the cholera which we are sure to have next year. He advances scientific reasons for his belief. Citizens attribute the visitation to sanitary regulations and it seems likely to lead to investigation and overhauling of the health department. The use of abominable well water by dairymen in rinsing cans is said to be prevalent in the city.

CONFEDERATE VETERANS.

Hereafter They Will Carry the Stars and Stripes on Public Occasions.

ATLANTA, Ga., Nov. 22.—The Confederate Veterans' association, of Atlanta, held a meeting last evening which was attended by some 200 members. Dr. J. William Jones offered a resolution that, as the stars and stripes is now the flag of the nation, that it be carried by the association on all public occasions as well as the confederate flag. This resolution was unanimously adopted. This is the association that carried the confederate flag during the unveiling of the Grady monument, and behind which a local Grand Army post marched, for which they were disciplined by Grand Commander Palmer.

OHIO'S VOTE.

Official Returns in From All But One County.

Twenty-two Republicans and One Democrat Will Cast the Electoral Vote of the State.

COLUMBUS, Ohio, Nov. 22.—The secretary of state now has all the returns from the late election complete except the vote on the state ticket in Fayette county. This has not been officially returned, but the exact figures have been ascertained. The total vote in the state, according to figures prepared by Colonel Pearman, was 854,293. In the last four years the vote ought to have increased not less than 55,000, and it was estimated that the total vote this year would reach 895,000 at least. It is more than 40,000 short of this figure, and the reasonable supposition is that nearly, if not quite that many voters, took no little interest in the election that they remained away from the polls. The total's on presidential electors give Danford, republican, a plurality of 1,074 over Seward, democrat, and that will be accepted as the republican plurality in the state. Danford ran 2,779 ahead of the other presidential electors on the republican ticket, whom Seward, democratic presidential elector, beats by a plurality of 1,402. S. M. Taylor ran behind the presidential ticket in more ways than one, his plurality over W. A. Taylor, democratic candidate for secretary of state, being 973. The plurality of other candidates cannot be figured out for some time yet.

CINCINNATI, Ohio, Nov. 22.—The official vote of Ohio at the election November 8, or enough to make a record for future reference, is as follows: Presidential Elector Danford, republican, 405,187; other republican candidates, 402,703. Seward, democrat, 404,113; other democratic candidates, 404,461. Bidwell, 11,318. Prohibitionist, 26,007. S. M. Taylor, republican, for secretary of state, 402,545; W. A. Taylor, democrat, for secretary of state, 401,454. The official footings on the remaining electoral candidates have not been completed, and it is not yet known who is the luckless republican defeated by Mr. Seward.

OFFICE SEEKERS

Make President-Elect Cleveland Much Trouble.

He Announces That No Applications for Office will be Considered Until After the Inauguration.

NEW YORK, Nov. 22.—President-elect Cleveland left town today in search of a much needed rest. A reporter of the United Press called upon Mr. Cleveland this morning. In speaking of the absolute necessity of relief from the annoyances and exactions which are his daily lot at home, he said: "Many of his officers whom I have been obliged to receive would not, I think have encroached upon my time if they had given the matter a moment's reflection. Those who have called upon me to talk about offices, it seems to me, have been a little inconsiderate, and certainly premature. I desire to give as much publicity as possible to the statement that I don't propose to consider applications for office prior to my inauguration, and I shall avoid all interviews on that subject. Those who, under any pretense, gain an opportunity to present their applications orally, and those who burden me at this time with written applications, can not possibly do anything which would so interfere with their chances of success. Written applications will be so little regarded that I doubt if they ever see the files in Washington, for there is no reason or decency in my being overwhelmed with such matters at this time."

Upon being asked how long he expected to be away on his vacation, Mr. Cleveland replied: "As to that I am not certain; it will depend upon various conditions. I expect, however, to be absent about two weeks, and when I return, unless I am somewhat relieved from the unnecessary demands upon my time to which I have been subjected here thus far, I shall shut up my house in the city and find some more quiet place to spend the winter. Certainly between now and the 4th of March, I ought to have some time to devote to other matters than receiving callers and considering subjects which should be postponed."

HAWAIIAN ISLANDS.

The State Department Considering the Question of Annexation.

SAN FRANCISCO, Nov. 22.—The Examiner today publishes a three page article on the subject of the annexation of the Hawaiian Islands by the United States. The article says it has been understood that the state department at Washington has for some time been considering the question of annexation. T. F. Williams was sent to Honolulu by the Examiner and spent five weeks there investigating the subject. Out of forty-one members of the Hawaiian parliament he obtained signed articles on the subject from forty-one. Ten of these regard annexation as possible and desirable in case the Hawaiian government is disrupted. The thirty-seven who are opposed to annexation are natives who are in favor of the autonomy of the Hawaiian kingdom.

The Sons of Columbus will give a ball in their hall this evening.

BIMETALISTS

Have Commenced the Campaign of '94 and '96.

General A. J. Warner Issues a Circular Entitled "The Coming Issue"—The People Being Educated.

NEW YORK, Nov. 22.—The Herald's Washington special says: "The bimetalists have already taken the field. They claim to be preparing for the elections two and four years hence, respectively. Gen. A. J. Warner, president of the bimetallic league, issued a circular yesterday, entitled, 'The Coming Issue.' In it the republican policy of tariff protection is reviewed and the point is made that the effort to protect the home market exclusively for home producers has not resulted in general prosperity, but on the contrary has engendered monopoly, has not increased the wages of labor nor has it reduced the prices nor relieved the ones of the people from the evils of increasing debt and taxes caused by the continued increase in the money standard. The circular then proceeds to explain that the effort of the coming administration will also prove futile in the direction of bringing prosperity to all. The evil, it says, cannot be cured by tariff reform or a protective tariff. The only remedy is to stop the increase in the value of money. General Warner's address closes with this paragraph: 'The next issue, therefore, will be the money question. Nor will this issue be long delayed. Its suppression by the leading parties in the campaign just closed did not settle it. The people are being educated on the money question faster than the politicians think. Now is the time for bi-metallism to organize and push to the front the issue of free bi-metallic coinage.'".

CAR FAMINE

Again Making Itself Felt by the Grain Shippers of South Dakota.

SIOUX CITY, Nov. 22.—Reports from grain shippers in South Dakota indicate that the car famine, which was thought to have ended three weeks ago, is again making itself felt and promises fair to assume its extent that of recent date. All the elevators and grain houses are said to be crowded to the full capacity, and thousands of bushels of wheat are loaded in wagons for lack of a better place of storage. Railroad officials say it is impossible to provide cars as fast as wanted. On the Chicago and northwestern over 200 cars have been distributed in the last few days on one division, and the movement effected but little relief.

SCHOOL STATISTICS.

Number of Persons of School Age, Enrollment, Attendance, Etc.

INDIANAPOLIS, Nov. 22.—The law requires that each year in which the legislature does not meet, the state superintendent of public instruction shall make a report of certain facts to the governor for the information of the latter in the preparation of his message to the legislature. That report Superintendent Varies made to Governor Chase yesterday. It is based on facts as they existed January 1, 1892.

The report shows that the number of white male persons of school age in Indiana at the beginning of 1892 was 263,654; colored males, 8,181; white females of school age, 362,947; colored females, 8,425. Total number of persons of school age, 763,207. Of this number 521 841 boys and girls were enrolled in the public schools, but the daily attendance was only 369 060. The number of teachers required to teach these children was 15,411; 6,793 men and 6,652 women. The number of public school houses in the state on January 1, 1892, was 9,801. Of these, 91 were of stone, 3 399 of brick, 5,698 of wood, and 10 of logs.

The increase in the common school fund in 1891 was $71,518.62, making the total fund $9,928,134.79. The total revenues for the support of the common schools of the state during that year were $5,636,199 91.

DIPHTHERIA RAVAGES.

An Epidemic of the Disease at Indianapolis—Schools Closed.

INDIANAPOLIS, Nov. 22.—Diphtheria is epidemic in the northeastern portion of the city, and yesterday public schools Nos. 10 and 27 were closed, the disease having assumed such a virulent form and so many cases being reported that the school board ordered the schools closed. In the last week nineteen cases, with two deaths, have occurred, and in less than a month fifty cases, with thirteen deaths, have been reported in the territory in which the schools draw their patronage.

EAST TAWAS, Mich., Nov. 22.—The diphtheria is raging here. Three death have occurred in the last twenty four hours. Burials take place at night. Alabaster, Tawas City and Oscoda are all visited with the disease.

A BAGGAGE THIEF.

Ernest Wright Lets His Greed Lead Him to do Wrong.

CHIHUHUA, Mex., Nov. 22.—Ernest Wright, nineteen years of age, the son of a prominent and wealthy citizen of Kansas City, Mo., is on trial in the district court here upon the charge of robbery. He occupied cause to Mexico about eighteen months ago and secured a position with the Mexican Central railroad. He performed his duties faithfully and was soon promoted to the position of baggage master, of a railroad in this city. About three months ago there was begun a series of systematic robberies of trunks and other pieces of baggage that passed over the road. Detectives were soon at work on the cases and fastened the guilt on Wright, who was immediately imprisoned. Four thousand dollars worth of jewelry ornaments and silks was recovered. The stolen property was secreted in a deserted jackall. On the day of his arrest he escaped from the jail, but was recaptured after a chase of fifty miles. The Mexican law is very severe, and young Wright will probably receive a long term in prison. He refuses to ask his father for assistance or let him know of his trouble.

KAISER WILLIAM

Opened the Reichstag in Person This Morning.

Closest Attention Paid While His Majesty Delivered His Address—The Army Bill.

BERLIN, Nov. 22.—The kaiser opened the reichstag in person today. Nearly every member was in attendance and the closest attention was paid while he delivered his address. The kaiser looked remarkable well and spoke with a depth of intonation that seemed to indicate his feeling in regard to the coming struggle over the army bill. There was a general attendance of the imperial ministry, Chancellor Capivi occupying the place of honor near the sovereign. The kaiser said that he regretted that the cholera had caused such suffering and loss of life in portions of the empire. Besides the suffering caused, the cholera had damaged the economic situation, especially in regard to exports. Contrary to expectations, the cholera still lingered in the country, but he hoped that it would soon disappear. The address went on to say: In view of our friendly relations with all the powers and our consciousness that if we continue to pursue the common end in view, we will still enjoy the cordial and effective support of our allied states, I may cherish the hope that Germany will not be disturbed in the peaceful task of promoting her economic interests. Nevertheless the development of the military power of other states of Europe imposes on us the serious and imperative duty, on our side, of strengthening the defensive capacity of the empire by drastic measures."

BLOTTED OUT.

An Entire Family Lose Their Lives in a Fire.

The Charred Remains of Father, Mother and Daughter Found Among the Ruins.

PITTSBURG, Pa., Nov. 22.—The lives of one entire family were blotted out by fire early this morning. The dead are Hiram Danahaur, aged forty-five years; his wife, aged forty-five; and their daughter, aged ten years. The Danahaur family lived in Pleasant Valley, Ohara township, just outside of the town of Sharpsburg. They had a green house in the basement of their home and put a fire in the furnace yesterday. It is presumed that the furnace became overheated, setting fire to the wooden work. The family died before their neighbors knew of their danger. When the fire was discovered the house had been burned to the ground and the charred remains of father, mother and daughter were found among the ruins. Danahaur was a tinner by occupation and quite well connected.

BIG DONATION

Toward the Building of a Protestant Episcopal Cathedral in New York City.

NEW YORK, Nov. 22.—The Herald says: "It is reported on good authority that an individual, whose identity for the present is concealed, has signified to Bishop Henry C. Potter his intention of donating $500,000 toward the fund for the building of a new Protestant Episcopal cathedral of St. John the divine. It is asserted further that the money is even now in Bishop Potter's custody, but it may be that this is assuming too much. At any rate, all the indications point to the substantial truth of the report and it is probably only a question of a few days before all the details of this magnificent gift will be made public. It is also claimed that the giver of this princely sum is a well known and wealthy New Yorker and one high up in the councils of the Protestant Episcopal church."

THEIR LAST SLEEP.

A Bridge Gang, as They Slumber, Carried to Death.

SIOUX CITY, Iowa, Nov. 22.—The conductor of a Chicago, Milwaukee and St. Paul train left a caboose and fifteen loaded cars standing on the top of the heavy grade near Hartley, Iowa, yesterday morning while the train crew, with the engine, went to do some switching. In the caboose were five members of a bridge gang sleeping. None of the brakes of the detached cars were set and the wind blew them back over the grade, and when near Everly the cars crashed into a rapidly moving freight train. The engineer and fireman of the train jumped and escaped injury. The caboose and all the cars piled up over the engine, completely burying it, and the wreck, in which were two cars of coal, took fire. The men in the caboose were unable to escape from it, and Daly Stephens was dead when taken from the wreck. J. Stephenson was burned and crushed and will die. The other men were rescued from the wreck, but are badly hurt, although it is thought they will recover.

SEEKING FOR OFFICE.

Gray-Voorhees Wing's Efforts to Control Indiana.

The Cleveland Men Feel Confidence in the President-Elect—Shanklin Not a Candidate for Senator.

(Indianapolis News.)

There is much maneuvering by the managers of the Indiana democracy for personal advantage under the coming democratic administration. Half one dozen men about the hotels and places where the politicians congregate is true the old anti-Cleveland wing of the party will be disappointed if it does not control the distribution of the patronage of Indiana. After the conference of the Voorhees-Gray followers here last week, Senator Voorhees went direct to New York. It is thought that he went to see Cleveland in the interest of Gray and other Indianians who expect to be rewarded. Said a member of the democratic state committee today: "Gray has, I have been informed, said to Senator Voorhees and to other democrats that Cleveland had promised him a place in the cabinet. He is trying to create the impression among all the leaders in the state that he has been assured of an appointment. Gray is a good politician and this is one of his schemes. He realizes that a place for him is not demanded by a large element in the party here in Indiana, and he feels that if he can get out the impression that he has been promised a place in the cabinet it will head off any opposition to him there might be. I have every reason to believe that Gray has not been promised anything by Cleveland. More than that I desire to go on record as saying that he will not be in President Cleveland's cabinet." But he didn't want to go on record by name.

It looks as if the effort to put Shanklin into the senatorial race would fail. Mr. Shanklin has said several times during the last few days that he was not a candidate for the senate and would not be. He is for Turpie. Mr. Shanklin's friends here say that he could not be a senatorial candidate without breaking faith with Turpie. He was instrumental in having Turpie resolutions of instructions passed in several counties and has all along assured Senator Turpie of his loyal support. Besides, it is said, Mr. Shanklin does not care for a seat in the United States senate yet. "He is a young man," said a friend today. "He would like to spend four or five years abroad, and then if all goes well he might consider the advisability of asking for a seat in the United States senate."

Mr. Shanklin, in his paper, the Evansville Courier, today announces that he is not and will not be a candidate for the senatorship. He says Senator Turpie should be returned without any opposition. Gray, some of the Indiana polls politicians believe, was anxious for Shanklin to enter the race. He felt that such a movement would influence Turpie to form an alliance with the Voorhees-Gray wing of the party.

Another bit of gossip today is to the effect that John E. Lamb is not down for United States district attorney on the latest slate made by the Gray-Voorhees wing of the party. Lamb, it is said, in consideration of his services for Cleveland at Chicago, has concluded that he wants something better, and in place of his name appears that of ex-State Senator Frank Burke, of Jeffersonville, who was refused a nomination to the legislature by his constituency. For United States marshal the slate makers have put down the name of George W. Geiger, of this city.

While the Voorhees-Gray wing is busy distributing the offices, the men who were for Cleveland when most of the other democratic leaders in the state were against him, are saying nothing and doing nothing. The little they do say is that they have confidence in Cleveland, and have no fears of the office-seeking hordes in this state getting any advantage of him.

One of the most interesting entertainments and concerts of the large number given at the city department Y. M. C. A. this season is the one looked for next Saturday evening, November 26, the New York Philharmonic club, under the directorship of Eugene Weiner. The club is now in its fifteenth season and is composed of the following most excellent talent: Johannes Miersch, violin; George Sauer, viola; Paul Miersch, violincello; Eugene Weiner, flute; Adam Laufenberg, violin; William Augermann, double bass. For date of sale of tickets watch the papers.

At the Grace church bazaar this evening the excellent Flag drill given by the young ladies the other evening will be repeated, and Casso's orchestra will furnish music. Piano solos and solo singing will be other attractive features of the entertainment. The bill of fare for tomorrow is an unusually good one. On Thanksgiving day services will be held in the hall at 10 o'clock and an elaborate turkey dinner served from 11:30 to 3 p. m.

The market space on Harrison street was a busy place this morning. The teams extended from the Nickel Plate track clear down to Berry street. Turkeys, chickens, ducks and poultry of every description could be bought. Many a Thanksgiving turkey left the market. It took two policemen to keep the street open.

J. M. Read, son of M. Read, has returned from New York.

DIVORCE DAY.

Two Couples Legally Separated by Judge Dawson.

Ella Plumadore Wants a Divorce From William Plumadore—Trustee of Jefferson Township Will Resign.

Judge Dawson has granted divorces in two cases within the last twenty-four hours. Elizabeth Maumee was given a divorce from Gottlieb Maumee on the grounds of cruelty and abandonment. She was also given the custody of the three minor children, William, Gottlieb, jr., and Lottie. An other divorce granted was in the case of David De Veaux vs. Mary De Veaux. The plaintiff was given a legal separation from his wife on the charge of abandonment.

The divorce case of Minnie J. Webber vs. Wm. J. Webber was to have been tried and all the witnesses were present. A postponement was taken until next Tuesday.

This morning Mrs. Ella Plumadore filed papers in the circuit court, in which she asked for a divorce from her husband, William Plumadore. The reporter failed to get a peep at the papers, as the plaintiff's attorney, Hon. J. E. Rothabaugh, had them safely ensconced behind lock and key at his office.

The case of Wagner vs. Koch, suit on mechanic's lien, was on trial before Judge Dawson today.

The Wright Banking company, of Bellevue, Ohio, has begun attachment proceedings in the circuit court against John C. Sheffield, et al. Demand, $1,500. Morris, Bell, Barrett & Morris are attorneys for plaintiff.

Prisoners Anderson, Thompson and Bennigan were brought before Judge O'Rourke this afternoon, and their cases set for trial.

Judge Rose, of Auburn, attended court today.

Judge Dawson granted a judgment for $56 50 to the plaintiff in the case of Falk vs. Otten; in the case of Rolph vs. Morgan, the finding was for plaintiff in the sum of $58 80; the case of Schwartz vs. Old National bank is under advisement.

Attorneys E. V. Emrick and H. I. Smith returned from Hoagland this morning where they had been trying a case before Justice Snyder.

Mr. R. B. Hoops, trustee of Jefferson township, has sold his farm and belongings and will remove to Huntington county. He will tender his resignation as trustee to the county commissioners some day this week. There are several candidates for the position, among them Frank Gladio and Ad. Crawford.

Marriage licenses have been granted to Harry Lacey and Minnie Brunner Wm. F. Omo and Katie Horn, and Henry J. Wellman and Caroline Bardelmeier.

In Squire Ryan's court, yesterday afternoon, the case of the state vs. George Osterman, on a charge of assault and battery, was tried. It seems that yesterday morning Osterman left the house to go down town and make some purchases and pay a bill. He got $15 of his money from his wife. On the way down town he stopped into Ruppel's store and bought a goose. Through some mistake Osterman was given the wrong change. He discovered the difference shortly after and went back to Ruppel's place and raised a kick. A fight ensued in which Osterman seemed to get the worst of it. Mrs. Ruppel acted as peace maker and the combat was declared off for the time being. Ruppel then swore out a warrant against Osterman charging him with assault and battery. He was fined $1 and costs.

Charles Hoffemeyer, of Chicago, has written Squire Hayes regarding the taking of depositions in divorce proceeding brought by him against his wife in the Cook county courts. Mr. Hoffemeyer was a former resident of this city, being employed by Louis Wolf in the carpet department of his store. The attorney who will come from Chicago to take the depositions is Mr. Chittenden. A number of the witnesses who will appear for Mr. Hoffemeyer against his wife reside in this vicinity.

There was one drunk in police court this morning, Richard Wells, who was gathered in by Officer Harkenrider, on Main street, last evening. The fellow was about as drunk as a man can get. He was fined $1 and costs.

Chas. Straye, the suspicioned horse thief, is still confined in the county jail. The man charged in this house is in Kendallville, and the jailer says that he has told at least a hundred different stories about the horse, which he tried to sell here. The horse is still at the Wayne stables.

T. Hooper has sold to Clinton Crouse lot 21, Fry's addition, for $1,300; Jacob Keyser to John and Jeannette Wells, lot 27, Lillie's addition, for $1,200; Charles S. Bash to Mary D. Archer, lots 67 and 68, Gillette's addition, for $1,000; Land and Improvement company to the Rev. August Young, lot in Lakeside, for $600.

A NEWSPAPER FIRE.

The Harrisburg Patriot the Loser by Many Thousands.

HARRISBURG, Pa., Nov. 22.—Fire was discovered in the Morning Patriot building early this morning. The interior of the building was entirely burned out. The loss is estimated at from $40,000 to $60,000, partly insured. The morning edition had just been run off when the conflagration took place. Several persons were severely burned.

EGAN BANQUETED.

LINCOLN, Neb., Nov. 22.—Patrick Egan, minister to Chili, was tendered a complimentary banquet at the Hotel Lincoln last night by John Fitzgerald, ex-president of the Irish National League of America.

AFTER DAIRYMEN.

Dr. Metcalf, Secretary of the City Board of Health, Has an Interesting Resolution for the City Council.

Late Yesterday afternoon while Louis Schroeder was walking along the railroad track, near the Lafayette street crossing, he met with a serious accident. He had left his residence on Oliver street to go down town and took a short cut on the railroad tracks. A passing engine on the Pennsylvania road was blowing off a great cloud of steam, to escape which Schroeder stepped onto another track. As he did this he was struck by the Grand Rapids and Indiana passenger train from the south. The engine struck him and buried him under the wheels of the Pennsylvania switch engine. His right side was fearfully bruised and his right arm crushed beneath the wheels. He was taken to the St. Joseph hospital in the patrol wagon. At the hospital the arm was amputated at the shoulder by Drs. Stomen. The injured man is only twenty years of age, and was on a visit to this city from New Bremen, Ohio. He was the guest of his brothers-in-law, Messrs. H. W. Tracht, Louis Leumann and H. Schulte.

ANOTHER ACCIDENT.

Eddie, the twelve-year-old son of Henry F. Kiel, the special policeman, met with a serious accident yesterday afternoon. Eddie resides with his parents at No. 264 South Webster street, and was on his way home from the Emanuel Lutheran school. He stopped to play on the Pennsylvania railroad tracks near Broadway. He attempted to climb on a box car and fell under the wheels. His right leg was crushed in a fearful manner below the knee. Last night about 11 o'clock Drs. Nieuchang and Rosenthal concluded to amputate the leg, which was done just below the knee. At last account he was resting easy.

MANY ACCIDENTS.

Two Young Men Run Over by Railway Engines.

Louis Schroeder, of Bremen, Ohio, and Eddie Kiel, Both Love Limbs Accidentally.

Late yesterday afternoon while Louis Schroeder was walking along the railroad track, near the Lafayette street crossing, he met with a serious accident. He had left his residence on Oliver street to go down town and took a short cut on the railroad tracks. A passing engine on the Pennsylvania road was blowing off a great cloud of steam, to escape which Schroeder stepped onto another track. As he did this he was struck by the Grand Rapids and Indiana passenger train from the south. The engine struck him and buried him under the wheels of the Pennsylvania switch engine. His right side was fearfully bruised and his right arm crushed beneath the wheels. He was taken to the St. Joseph hospital in the patrol wagon. At the hospital the arm was amputated at the shoulder by Drs. Stomen. The injured man is only twenty years of age, and was on a visit to this city from New Bremen, Ohio. He was the guest of his brothers-in-law, Messrs. H. W. Tracht, Louis Leumann and H. Schulte.

ANOTHER ACCIDENT.

Eddie, the twelve-year-old son of Henry F. Kiel, the special policeman, met with a serious accident yesterday afternoon. Eddie resides with his parents at No. 264 South Webster street, and was on his way home from the Emanuel Lutheran school. He stopped to play on the Pennsylvania railroad tracks near Broadway. He attempted to climb on a box car and fell under the wheels. His right leg was crushed in a fearful manner below the knee. Last night about 11 o'clock Drs. Nieuchang and Rosenthal concluded to amputate the leg, which was done just below the knee. At last account he was resting easy.

Frank Smith and W. Berger, of the Fort Wayne Electric Light company, each lost a finger yesterday by having the members caught in some machinery.

THE COMET.

It Can Now be Seen Directly Overhead at 8 O'clock.

The fiery orb, known as Biela's comet, is now visible to the naked eye at 8 o'clock in the evening, and can be seen almost directly overhead in the dim shadow of the constellation of Andromeda, slightly to the north. With the aid of opera or field glasses the comet can be seen quite clearly. It will, within two weeks, appear to be as the diameter of the full moon, reaching the point of closest approach to this planet on November 24.

Young, the electric light employe who was so badly hurt by falling from an electric light tower in Bloomingdale, not long ago, is slowly recovering at St. Joseph hospital. It is a miracle that Young was not killed outright, as he fell a distance of over fifty feet. Dr. Stemen says his condition is now very favorable.

ST. PAUL has broken the advertising record by sending a capitalist worth $300,000 to the workhouse without the option of escape by the payment of a fine. Fort Totten will now take a new lease on his theory of the early dissolution of the world.

CAUSE FOR ALARM.

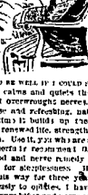
Insomnia a Serious Condition.

"I CANT SLEEP!"

Sleeplessness is a rapid road to the insane asylum. It is a cause for alarm, anxiety or business troubles to drive away from their eyelids, while women with nervous nerves and excitable temperaments, lose an hours upon hours each night in sleepless, restless misery.

What wonder that there are so many shattered nerves, tired brains and debilitated bodies, when we consider the thousands who pass sleepless or disturbed nights, and the mornings finding indescribably miserable, drazzed out, with tired brains exhausted energies, nervousness and ambitious gone.

It is mad best folly to use opium, morphine or chloral. There is one sure way to cure sleeplessness—use Dr. Greene's Nervura Blood and nerve remedy. This great remedy is nature's own sleep producer, and is perfectly harmless, being made up of purely vegetable medicines. For sale by druggists, $1 a bottle.



"WOULD BE WELL IF I COULD SLEEP."

It soothes, calms and quiets the weakened irritable and overwrought nerves, plays deep, perfect repose and refreshing, natural sleep at the same time it builds up the entire nervous system, restores lost strength and vigor to the system. Use it, you who are sleepless.

"I can cheerfully recommend Dr. Greene's Nervura blood and nerve remedy as being a good remedy for sleeplessness. Having been troubled in this way for three years, and feeling seriously so of late, I have had Dr. Greene's Nervura blood and nerve remedy with great benefit. I have recommended Dr. Greene's Nervura to many of my friends who have been much benefited by its use.

MRS. G. H. HILL,
11 Union street, Concord, N. H."

Dr. Greene, the successful specialist in curing all forms of nervous and chronic diseases, 35 W. Hill street, New York, can be consulted free, personally or by letter. Call or write him when your case is ripe. Send for symptom blank to fill out and a letter fully explaining your disease, giving advice, etc., will be returned free.

EX-CONGRESSMAN JOHN E. LAMB, of Terre Haute, says he is not a candidate for United State district attorney or any other office.

DIPHTHERIA has broken out to an alarming extent in the city of Indianapolis, and several of the public schools have been closed.

DR. KIRK, the democratic jollification at Mount Carmel, Squire Michael George picked up what he supposed to be a Roman candle, but what proved to be a cracker filled with giant powder. In the explosion his hand was torn off.

THE Anderson tin-plate works, which figured conspicuously in the recent campaign, has been wrecked by fire, due to incendiarism. Loss, $10,000. The plant was owned by C. B. Orvis, of Anderson, and operated by C. C. Clarke and Samuel Alderson. Coal oil was used to accelerate the flames.

PROF. LEWIS ROSS, the widely known astronomer in charge of the Dudley observatory at Albany, N. Y., says the comet is not Biela's, or even a part of Biela's, and that it is not traveling toward the earth, but directly away from the earth. In view of these conclusions the professor adds that there will not be any collision with this heavenly visitor nor any meteoric displays, nor, in fact, any celestial exhibition of any sort.

THE official vote in Indiana for governor gives Matthews, democrat, 260,692, Chase, republican, 253,623; Templeton, people's, 21,692; Worth, prohibition, 12,163. Matthews' plurality, 6,979. Several counties have not made official returns on presidential electors. Should not three returns be forthcoming Wednesday (tomorrow) the governor will send a special messenger to collect them in order that the state canvassers can make the official count next Monday. The electoral college meets the first Monday in December.

THE Philadelphia Times, the leading democratic paper in the east, says the protected manufacturer who petulantly threatens to close his mill or to reduce wages when tariff revision is fully one year distant, and when free trade is only an "irredescent dream" of a few cranks that disturbs only the picturesquely idiotic partisan, invites popular distrust upon himself and his cause. No party of extremes can live in this country. That is why the extreme protectionists defeated the republican party, and the democrats would surely meet defeat in 1896 if they accepted the views of extremists in tariff reform.

A SPECIAL dispatch from Indianapolis to the Gazette contains the following in reference to Judge Hench's canvass for speaker of the house of representatives: "It is known now are that the fight for the speakership of the house will be between Judge Samuel M. Ralston, of Fort Wayne, and Captain J. B. Curtis, of this city. It seems as if Captain Curtis will have much opposition here from some of the older democratic managers. They say Judge Hench is an able man, was a member of the house two years ago, cannot be swerved from what he conceives to be right, and that he has the courage to stand by his convictions. It is conceded here that Hench will make the captain hustle. Captain Curtis is a young man of good ability and was a member of the legislature of 1889 and 1891."

THE News of this city has the following kind words to say about Mr. Clarence Edsall a very deserving democrat, and one who will no doubt receive a good position under the new administration: "The News will probably not be chosen as director of local appointments under the incoming administration. And yet, there can be no harm in referring to the qualifications of a competent gentleman who deserves well of his party. For very many years, Mr. Clarence Edsall has been indefatigable in his efforts in behalf of democratic success. In every campaign, city, county, state and national, he has been at the forefront of the battle. Mr. Edsall has not received much in the way of official employments. Years ago he was deputy county clerk, and one of the most efficient men who ever held that position. But beyond this, although dozens of republicans have been adopted and given good positions at the hands of the local democracy, Mr. Edsall has had little or no acknowledgement of his splendid services. Multiplied reasons could be given why this deserving gentleman should be one of the first to be recognized by the new administration, and not the least important of these is the fact that there is not a citizen of Fort Wayne who would not sign a petition asking for his appointment to any office he might ask."

False Economy.

False economy is a sadly besetting fault, affecting all ranks and conditions of men and making its ravages felt not only in commercial circles but also in the whole conduct of life. "Ah," said an old farmer, "we do not think of quality so much now. What we demand is cheapness." Many well meaning but mistaken folk will never go above an impossibly low price for their purchases. And the caterer knows how numerous a tribe this is. So, to appease their insatiate greed, the market is deluged with foul wholesale, with clothes that never wear and "jerry" buildings tottering in the storm. The piping times when men framed houses to stay and wore cloth which decorated its owners back for full a score of years are an object lesson to modern days. In most things we cannot afford to be "looking backward," but this is an exception to the rule. Another serious consequence of the blunder of "the penny-wise and pound-foolish" class is that buying of this or that or anything because it is so great a bargain, and not for any use to which it can be put. A fool and his money never separate more rapidly than when he invests the cash in uselessness. Coin is a means of power enabling us to obtain the demands of existence and should never be expended in superfluities. There are, says the New York Ledger, more serious questions which range themselves under this proverb's wealth of meaning. Men who most upon the dead memories of the past or sell the living present for the uncertain future; who sacrifice health and mental vigor in pursuit of any mere earthly treasure, are pennywise, maybe, but certainly pound-foolish.

A Voice From England.

The London Times has the following congratulatory reference to the dedication of the world's fair in the editorial columns of a recent issue:

"The Chicago world's fair buildings are most fairly to be judged by comparison with previous structures intended for a like purpose. In size they are without an equal or a rival. Quite literally they are first and the rest nowhere, or so far behind as not to come into the running. On no former occasion of the kind has there been anything like them or near them. In the extent of ground which they cover, in their structural dimensions, in the number of spectators which they will accommodate, in the profusion and elegance of the decorations, and in their general adaptability for the purpose for which they have been designed they stand out as supreme. It is idle to say that there are other countries which could do the same if they chose. The fact remains that the United States has done what has never yet been done elsewhere, and has given proof to the world of what wonders can be brought about by industrial enterprise and skill, unhelped by a patriotic spirit and a resolute intake the lead in everything. It is a splendid spectacle. We fully recognize the qualities and efforts which have produced it, and we offer our hearty congratulations to the souvenirs with which they have been crowned."

A NEATLY dressed old lady giving her name as Mrs. Gardner arrived in Indianapolis, Ind., the other morning in search of her son, Edward Trolley, who, she said, was stolen from her by his stepfather in 1861, from Hillsboro, Ill., where they have lived ever since. The boy at first has done nothing but wander from place to place in search of him. In every town she visits she makes a thorough house to house and shop to shop canvass in order to be sure that she has not overlooked him. She says that she has spent twenty thousand dollars looking for the boy.

A CURIOUS yet profitable business in the exportation and reimportation of quicksilver has sprung up in California. Quicksilver for export is sold at five dollars less per flask of forty-nine pounds than the domestic price, and one-half pounds than that for consumption, and shrewd dealers have not been slow to take advantage of this rebate of over six cents per pound. They have cheerfully paid the freight to Australia and back again, and have cleared nearly five cents per pound on the transaction.

WERE the free-born young women of America to be subjected to the arbitrary conditions in the matter of dress which surround the women of Germany they would create a rebellion instanter. Fancy a woman of to-day buying her wearing apparel regulated by law, even though that law be wise and rational. First it is the length of one's skirt that the police is called upon to consider, and now it is corsets that factory women are hidden by law to discard through the German officials at Spandau. How the free-born and much-laced American factory girl would wave the banner and sound the declaration of independence at such interference from legislature.

Write Them a Letter To-Night.

Don't cross the dreary miles of your mind,
But stay in your room to-night;
Don't pamper to the friends that call
Upon a good, long letter write.
Write to the sad old folks at home,
Who sit by the fire and think of you,
With faded hands and dim eyes,
And think of the absent one.
Write them a letter to-night.

Don't selfishly scribble: "Excuse my haste,
I'm busy at this time to write."
Lest their brooding thoughts go wandering back
To many a bygone night,
When they lost their needed sleep and rest,
And every breath was a prayer
That you would have their intimate take
Up their tender love and care.
Write them a letter to-night.

Don't think that you're no more need
Of their love and counsel wise.
For the heart grows strangely sensitive
When age has dimmed its eyes;
It might be well to let them believe
You never forget them quite—
That you deemed it a pleasure, when far away,
Long letters home to write.
Write them a letter to-night.

Don't think that the young and giddy friends
Who make your pastime gay
Have half the anxious thoughts for you
That the old folks have to-day.
For the sad old folks at home,
With locks fast turning white,
Are longing to hear of the absent one—
Oh, write them a letter to-night!

Gen. Grant's Cabin.

The historic log cabin which was Grant's headquarters during the most important part of the civil war, and which now stands in Fairmount park, says the Philadelphia Press, is fast being carried away by souvenir and piecemeal by relic hunters and pocket-knife vandals. The hut stands amid a clump of trees at the top of an unfinished grass-grown knoll not far removed from a great elevator and a hybrid settlement of razzle-dazzles, soda-water fountains and peanut stands.

Animated and turbulent as the adjacent acres of park territory are when once the outskirts of the thin woods amidst which the hut is located are penetrated, all becomes still and lifeless so far as human agency is directly concerned. The park guard, if he ever strolls here, must make his visits short. The structure itself is worm-eaten and uncured for. It has a door at the front and another at the rear. Each is backed by the initial-carving fiend. There are windows on the two sides, but dust and grime have made them almost opaque.

Nevertheless, the story of which this neglected old hut was a part will live in history forever. It was put up in 1861, and was occupied by Grant during the last four or five months of the rebellion. It stood on a bluff overlooking the James river, where were established the headquarters of the Union armies from June, 1864, to March, 1865. During the summer and part of the autumn Grant had slept in a tent, but as the weather grew colder cabins were built for the officers.

Grant, as Commander-in-Chief of all the military forces, had a structure more pretentious than his staff, "inasmuch as it contained two rooms, whereas the other officers' cabins had but one. Mrs. Grant spent a portion of the winter with her husband, and after her departure it became the resort of all the military lights on the Union side of the conflict. The most historically-important events in the history of this country were planned in this now moldering little shanty.

From it Grant issued his orders rallying Sherman's march to the sea, and he summoned Sheridan to the Potomac. From it he removed Butler after the failure at Fort Fisher. The celebrated dispatches to Thomas were written in it. Here Grant received the commissioners who came to treat for peace.

The Flag at Lookout Mountain.

Hugh Brady, Company I, Eighty-fourth Illinois, Yates Center, Kan., says that there has been a great deal of disputing about Lookout Mountain, and he believes that all the troops were pretty well in the whole duty, but the writer thinks he can tell who first raised flag pulled down on top of Lookout Mountain, no matter who may have been planted the first United States flag. While Rosecrans was advancing on Chattanooga in September, 1863, the Third brigade, First division, Twenty-first corps, ascended Lookout, and about the 25th day of September reached the top of the mountain by using cow-paths, in some places being obliged to march single file. After reaching the summit and forming lines-of-battle they marched from the point of the mountain to Summerville and overcame the rebel rear-guard and gave them a chase. When they reached Summerville the rebs were getting down the east side of the mountain, quitting the place in such a hurry that they had left their headquarters flag nailed to a tall tree, which had been trimmed of foliage and which was right on the brink of a cliff. Gen. William Grose said the flag must come down and William Baugness, of Company H, Eighty-fourth Illinois climbed the tree and lowered the flagstaff, and then came down into the place where the writer was, and he said, "Boys, we have got the flag, and we must get it home."

Mrs. S. A. Hildebrand, of Huntington, visited her daughter, Maggie, in this city, yesterday afternoon.

R. L. Anger, the florist, has returned from Indianapolis, where he had an exhibit at the chrysanthemum show. He won second prize on a single stem specimen.

At a called meeting of the members of the First U. B. church last evening, a committee was appointed to draft plans and specifications for a new parsonage to be built soon.

In order to give his army of employes an opportunity to eat Thanksgiving turkey, Hon. J. B. White will close the Fruit House at 12 o'clock Thursday and give all a half holiday.

James A. Herne received much praise and great financial benefit from "Hearts of Oak" but from present indications his latest dramatic effort, "My Colleen," which will be shortly seen at the opera house, will be the most successful play of this well known dramatist's plays.

The following Fort Wayne institutions have engaged space and will make exhibits at the world's fair in Chicago next year: Bass Foundry and Machine works, Dether & Barrows, Fleming Manufacturing company, Fort Wayne Electric company, Fort Wayne Organ company, C. D. C. Huestis, Tresatt & Sons, and the Wayne Oil Tank company.

J. B. Hill, jr., of Detroit, is in the city. Mr. Hill is agent for R. L. Polk & Co., the directory publishers. Work on a new directory will begin at once and the public should lend their aid in making up the new book, which, besides containing Fort Wayne city and Allen county, will also have directories of Huntington, Bluffton, Kendallville, Van Wert, New Haven, etc. It will also contain a complete map of the city of Fort Wayne.

The Huntington Herald says: "Mr. Claude Stitt spent Sunday in Fort Wayne. This is his third consecutive Sabbath passed in that city. There must be some special attraction for him. —Miss Jennie McClelland, of Fort Wayne, accompanied Miss Emma Abendroth home Saturday evening, and spent Sunday as her guest. Miss Abendroth will remain here during the week. —William Carroll, formerly pressman in the Democrat office, came down from Fort Wayne and spent Sabbath in the city. He was accompanied by George Gaffney.—William Upham and family are the guests of Fort Wayne friends. They left for that city this morning."

It is but fair to say that the advent of John Mason and Marion Manola as joint stars will prove a notable occasion tomorrow night. Either one of these popular people might with propriety be the head of an attractive amusement enterprise, for the successes which each have achieved are many and important. When both artists are to be seen in conjunction, therefore, in two new plays by well-known authors and supported by a company of assured cleverness and competency, it is no wonder that there should be a wide spread interest in their appearance, an interest not confined to Boston, however, since several leading metropolitan journals telegraphed for an account of their recent opening performance. The bill which they propose to present here offers refined comedy and burlesque, which being in marked contrast, furnish a pleasing variety. "If I Were You" and "The Army Surgeon" appear to have been equally successful, and Mr. Edward's music is pronounced charming.

Miss Sarah O'Neil, of Colerick street, was very pleasantly surprised last evening by a number of her friends. The guests needed little entertaining as the gentlemen had furnished the music and the young ladies had thoughtfully prepared a dainty three course lunch-eon.
